Resolution to Appropriate Funds and Approve a Golf Cart Lease with Golf Cars Plus (\$796,050.00) and Appropriate Funding for the Purchase of Two Groundsmaster Mowers for Parks and Recreation (\$48,921.00) **(8 Votes Required)**

Attached for your review and action is a resolution to enter into a contract with Golf Cars Plus to lease 104 golf carts (63 of which have GPS systems) and three utility vehicles for the 2024 thru 2028 seasons with a one-year renewal for the 2029 season. These golf carts will be for use at Huron Hills and Leslie Park Golf Courses. The current golf cart lease expired at the end of the 2023 season.

Both Huron Hills and Leslie Park Golf Courses offer golf carts for customer rental. This is a significant revenue generator for both courses. In FY2023 golf cart rentals resulted in approximately \$398,000 in revenue.

An Invitation to Bid (ITB #4725) was advertised on the Michigan Inter-governmental Trade Network as well as on the City of Ann Arbor Purchasing website.

Two bids were received by the City:

Golf Cars Plus

- 104 Golf carts (2024) at \$195.00 per unit per month for six months: \$121,680
- 63 YamaTrack GPS Units at \$80.00 per unit per month for six months. \$30,240
- 3 Utility UMAX carts (2023) at \$405.00 per month for six months: \$7,290

Total: \$159,210.00 per year

Midwest Golf & Turf

- 104 Golf carts (2024) at \$ 192.00 per month for six months: \$119,808

63 GPS* Units at \$78.00 per unit per month for six months. \$29,484
3 Utility carts (2023) at \$450.00 per month for six months: \$8,100

Total: \$157,392.00 per year

*The GPS units here did not include a 3rd customer service module that the Yamaha units did. To obtain this comparable unit, it increases Midwest Golf's bid by \$24 per month totaling an additional \$9,072 per year, raising their total to \$166,464 per year.

Staff recommends moving forward with Golf Cars Plus and their annual bid of \$159,210.00 per year. Staff is satisfied with the carts and GPS units bid by Golf Cars Plus. Additionally, staff has worked with Golf Cars Plus for the last eight seasons and has been extremely satisfied with the performance of the carts and responsiveness from the company for maintenance needs for the golf carts.

Also, it is worth noting that the Golf Cars Plus golf carts selected are 7 MPG more fuel efficient than the carts offered by Midwest Golf & Turf. This will save an additional 1,100 gallons and \$2,800 per season.

Parks staff is working with the Office of Sustainability to explore a transition to electric golf carts and to identify funding sources for the project. Currently solar panels are being installed at both courses near the maintenance barns, irrigation pump houses and cart storage pens. They are projected to be completed at the end of the 2024 season. This will allow us to someday convert to electric golf carts and tap into these power sources. But this will also require a significant capital outlay to build cart barn structures at both Huron Hills and Leslie Park Golf Courses to house the golf carts and the charging stations needed to charge them. In 2016 we went to bid for a cart storage facility at Leslie Park Golf Course with the necessary infrastructure to support electric golf carts. The lowest bid was \$429,900.00 and at that time was deemed cost prohibitive. Because of this expense, a transition to electric carts within the next five years, though desired, probably is not feasible without new major funding or grants. Staff will work to expedite a transition toward an electric fleet of golf carts in the future.

Additionally, due to ongoing mowing operations, older mowers require replacement when their useful life ends. The Parks and Recreation Department are requesting \$48,921.00 be appropriated to the General Fund from fund balance for the replacement of two mowers. The purchase of these mowers was approved per resolution R-23-300; however, due to an increase in costs being more than expected, the Parks and Recreation General Fund budget was unable to absorb this cost when the purchase was made and an appropriation from fund balance is necessary.

Budget/Fiscal Impact: It is requested that the lease agreement be approved for four years (with a year renewal option), for a total contract amount not to exceed \$796,050. It is being requested that \$87,471 be appropriated from the General Fund fund balance to cover the additional unanticipated cost in FY24. Additional funding will be requested in the budget plan for future years.

It is also requested that \$48,921 be appropriated from the General Fund fund balance for Two Toro Groundsmaster Mowers that were purchased in December 2023.
