Mr. Brian Steglitz
City of Ann Arbor
919 Sunset Road
Ann Arbor, Michigan 48103

Dear Mr. Steglitz:

SUBJECT: Michigan Department of Environmental Quality (MDEQ)
Permit Number 10-81-0068-P
T2S, R6E, Section 20, City of Ann Arbor, Washtenaw County

We received a letter from your agent dated April 11, 2013, requesting a minor revision for work authorized by MDEQ Permit Number 10-81-0068-P. We also received on April 23, 2013, the \$50.00 fee for revision of this permit, as required under Part 301.

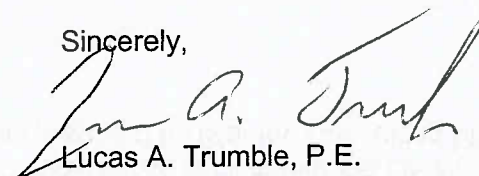

This letter authorizes revision of your MDEQ Permit Number 10-81-0068-P to modify drop No. 9 of the reconstructed Argo Dam Headrace to eliminate the safety hazard that currently exists. These modifications are to include excavation of approximately 30 cubic yards of existing material, 15 cubic yards of which are below the Ordinary High Water Mark (OHWM) of the Huron River, and place approximately 30 cubic yards of fill above the OHWM, in accordance with the attached plans and specifications prepared by Stantec Consulting Michigan, Incorporated.

The 100-year floodplain elevation for the Huron River at the outlet of the Argo Dam Headrace is 767 feet NAVD88.

You are reminded that all conditions set forth in the original permit remain in full force and that no work below the OHWM or within the 100-year floodplain of the Huron River is authorized in this revision letter outside of what is proposed in the attached plans. This letter must be attached to your permit and kept at the work site, available for inspection at all times during the duration of the project or until the date of expiration. This revision does not obviate the need for other federal, state, and/or local permits as may be required by law.

If you have any questions regarding this letter, please contact me at 517-335-3170; trumblel@michigan.gov; or MDEQ, Water Resources Division, 525 West Allegan Street, Lansing, Michigan 48933. Please include your Permit Number 10-81-0068-P in your response.

Sincerely,

Lucas A. Trumble, P.E.
Water Resources Division
