# Live Music

Local 107.1 DJ and Sonic Lunch mastermind Matt Altruda has planned live music from proven crowd pleasers to keep our community dancing in the street til Midnight.

# Midnight

METAL a local metal fabricating is creating a 6 foot puck lit with over 6,000 LED lights that will be slowly dropped as we approach midnight.

A safe, family friendly event is our number one priority, which is why we will have our puck created by engineers who can ensure an incredibly secure structure. We will also have our security team monitoring our puck at all times.
