AGREEMENT BETWEEN THE CITY OF ANN ARBOR AND THE DOWNTOWN
DEVELOPMENT AUTHORITY OF THE CITY OF ANN ARBOR REGARDING
RESPONSIBILITIES AND COST ALLOCATION FOR
THE STREET LIGHTING REPLACEMENT – KERRYTOWN MARKET AND LIBERTY
STREET PROJECT

This Agreement ("Agreement") is made and entered into this 30th date of January, 2018, by and between the City of Ann Arbor, a Michigan municipal corporation with its principal offices at 301 E. Huron Street, Ann Arbor, Michigan 48104 ("City"), and the Downtown Development Authority of the City of Ann Arbor, a public corporation organized and existing pursuant to the authority of Act 197, Public Acts of Michigan, 1975, MCL 125.1651 *et seq.* with its principal offices at 150 South Fifth Avenue, Suite 301, Ann Arbor, Michigan 48104 ("DDA"), for the purpose of fixing the rights and obligations of the parties relative to the construction of the Street Lighting Replacement – Kerrytown Market and Liberty Street Project. The construction of this project is hereinafter referred to as the "Project." Relevant details and scope of the Project are set forth in Exhibit A, which is attached hereto and incorporated herein by reference.

Whereas, the City and the DDA have expressed interest in working cooperatively on the Street Lighting Replacement – Kerrytown Market and Liberty Street Project to replace existing streetlights;

Whereas, the City and the DDA have agreed that the City should award a contract to Corby Energy Services, Inc. hereinafter referred to as "Contractor," to perform construction work for the Project;

Whereas, the DDA will be responsible for funding a portion of the Project as established in Exhibit B; and

Whereas, the City and the DDA have reached an understanding with each other regarding the performance of and payment for the Project and desire to enter into this Agreement to memorialize that understanding.

Therefore, in consideration of the premises and of the mutual undertakings of the parties and in conformity with applicable law, the City and the DDA agree:

1. The City and the DDA shall undertake and complete the construction phase of the Project in accordance with the terms of this Agreement. Exhibit A to this Agreement refers to and incorporates by reference the Project design, which details the complete scope of the construction work. Exhibit B to this Agreement lists the estimate for each cost sharing category and the allocation of costs between the City and the DDA for each category. As set forth in Exhibit B, the total dollar amount of the DDA's share of the Project shall not exceed \$150,037.68.

2. The City will enter into a contract with the Contractor for the Project. The City will administer the contract and related work necessary for the completion of the Project. In its contract with the Contractor, the City must require that the Contractor indemnify the DDA for any claims or lawsuits by third parties arising from the Contractor's work, and must require the Contractor to cover the DDA as additionally insured on its general liability policy. In the contract between them, the City and the Contractor also must recognize the DDA as a third party beneficiary of the contract.

3. The DDA is responsible for funding its identified share of each cost sharing category of the Project as defined in Exhibit B.

4. For payment of the Project costs, the City will contract directly with the Contractor, and finance the complete cost of the construction, including the DDA's portion of these costs. The DDA will reimburse the City for the DDA's share of amounts paid by the City. Exhibit B provides the estimated cost breakdown of construction costs and the allocation of costs due the City from the DDA for its share of the costs.

5. As the City pays for construction services and incurs costs on the Project, the City will invoice the DDA at a frequency no more than monthly. The DDA shall reimburse the City for the DDA's portion of incurred costs within 30 days of receipt of an invoice from the City.

6. Notwithstanding the DDA's funding of a share of the Project, the parties agree that responsibility for management of the Project, including all aspects of the contract with the Contractor, rests with the City.

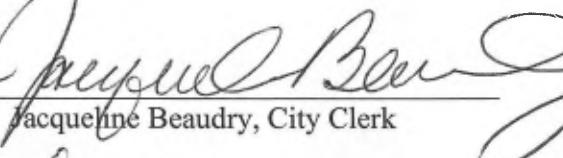

7. The parties understand and agree that the dollar amounts in Exhibit B are estimates of Project costs and that the actual costs may differ. However, the percentages for each category of costs identified in Exhibit B are agreed to between the parties and cannot be changed except by Amendment to this Agreement. The DDA's obligation to fund its share of the Project includes the obligation to fund change orders, authorized in writing prior to the work being performed, for its share of the Project. The parties agree that any change order that affects shares of the Project of both parties will be paid in proportion to those percentages agreed to by the City and the DDA and identified in Exhibit B, provided that the DDA's share of Project costs shall not exceed a maximum of \$150,037.68.

8. In the event any claims are brought against the DDA and/or the City by the Contractor, or a subcontractor, vendor or supplier for the construction phase of the Street Lighting Replacement – Kerrytown Market and Liberty Street Project and arising out of the construction or related work on the Project, costs incurred by the City in defending or resolving such claims shall be considered Project costs and will be funded in the same manner and proportion as the work to which the claims pertain. Any change order that results from a claim shall be funded as provided in Paragraph 7.

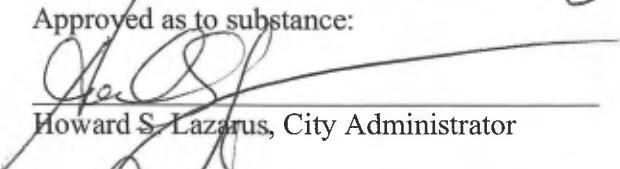

9. Each of the persons signing this Agreement represents and warrants that he or she has authority to sign this Agreement on behalf of the DDA or the City of Ann Arbor, respectively.
