**Subject:** Petition for Medical Marijuana Facility at 3720 Washtenaw

I would like to voice my objection to the use of the gas station at 3720 Washtenaw as a Marijuana dispensary. I'm sure you will find many people with objections of a site that adjoins a residential area. But I'd also like to state an objection based on the traffic and gas station usage. This is an extremely busy gas station, and there are not that many other convenient stations for people on this corridor. If this new use supplants the gas station, this will drive additional traffic and congestion to the remaining few stations, which will directly impact traffic flow on Washtenaw. Even if the gas station remains - this facility really only has 3 parking spot, so the added traffic may effectively remove it as a viable gas station.

Please take this into account in the decision making process.
