

Work Session Agenda

Ann Arbor City Council / Ann Arbor Downtown Development Authority

October 8, 2018

7:00PM

CTN, 2805 S. Industrial Hwy, Ann Arbor, 48104

CALL TO ORDER

PUBLIC PARKING SYSTEM: UPDATE

Usage and revenues

System changes: parking space additions and subtractions

Parking rate changes

DOWNTOWN OPPORTUNITIES / ISSUES

1. Infrastructure/Services

Are there opportunities for infrastructure partnerships or operational changes that would help meet city goals and/or improve service for the public? E.g. downtown alleys?

2. Mobility

What can we infer from the [National Citizens Survey](#) results giving high marks to pursuing changes to reduce pedestrian, cyclist, and motorist crashes even if it would moderately increase drive times? And with the emergence of new mobilities, how should we prepare with new policies or changes to the right of way?

3. Sustainability

Are there projects we should prioritize in pursuit of Ann Arbor's [Climate Action Plan](#) and [Sustainability Framework](#) goals?

4. Affordability

How can the DDA and City work together on the redevelopment of the [former YMCA lot](#) to accomplish the goal of new workforce and affordable units? And are there other opportunities the DDA and City can work on together to create more affordable housing?

PUBLIC COMMENT – GENERAL (3 MINUTES EACH)

ADJOURNMENT
