Subject: Re: Please recommend against proposed changes to ped ordinance tonight

Please add the following statement to legistar as a response to WBWC.

I have withdrawn my support for amending the local ordinance. I agree with WBWC on prioritizing our investment in infrastructure, especially positive-contrast crosswalk illumination. Also, I support improving compliance with local speed limits by expanding our use of electronic radar speed limit signs. This is a practical first step in slowing vehicular traffic.

Mayor Taylor joined me in advocating for a state crosswalk law to provide a uniform law across Michigan.
