Subject: Center of the City Task Force Input Invitation

Norm Tyler and I are on the Center of the City Task Force's Neighbor Engagement subgroup. The two of us would like to invite the HDC members to a joint meeting with the Kempf House Board to discuss activities of the Task Force and receive your valuable feedback. A proposed agenda could be as follows:

We would share a perspective on what's currently happening on the Library Block, as well as its history.

We would hope to gain opinions on an appropriate urban space for a downtown Commons.

We would encourage the group to stay updated on activities of the Center of the City Task Force.

We will meet at the Kempf House (312 S Division St) from 6 - 7 pm on October 14th.

If you are unable to attend but are interested in providing input, there will be an open community meeting at another date in late October or early November.

Thanks.
Ann
