In lieu of a Caucus this week I would like to use eComment to state my appreciation for your consideration, and my excitement for this nomination to the Transportation Commission. I would also like to thank CM Ramlawi for his kind words at the previous Caucus, as well as CM Nelson for her advice and encouragement during the application process. Thanks again,

-Bret Hautamaki

We are seeking approval to hold a 5k run in downtown Ann Arbor on 5/10/2020. 100% of race proceeds will be used to benefit the Michigan Ovarian Cancer Alliance (MIOCA). As part of our race planning, we will take all precautions to assure the safety of our participants, volunteers and spectators, including a virtual option for those unable or uncomfortable attending. As we continue to learn more about the COVID-19 pandemic, we will be prepared to adjust the race to a 100% virtual event if necessary. Of course, we will comply with all federal, state and local orders regarding public gatherings and other recommendations that may affect our ability to safely offer this event. Safety for all is our first priority as we plan this event. In a best case scenario, we will have another amazing event in downtown Ann Arbor that attracts visitors to this vibrant community, while helping raise funds for the important work being done by MIOCA.

Although this resolution is fundamentally symbolic, I do urge Council to support it because it is sound environmental policy and because it is supported by all our local legislators. Thank you.

Agenda Item: eComments for DC-3 20-0438 Resolution Directing the Planning Commission to Create a Transit Supported Development District

Because the need for more affordable housing in this City is a clear imperative and is a mechanism to reduce commuter traffic, I strongly urge Council to support DC 3 tonight. Thank you.

Dear Mayor & Councilmembers,

I am writing to support DC-3 to direct Planning Commission to create a transit-supported zoning district. The most consistent concern I heard when this was first brought to a public hearing at Planning Commission was that we need to respect our Master Planning process. I agree! Our existing plans contain, in multiple places, recommendations to zone for higher density housing & mixed use zoning along transit corridors. We can continue to implement the plans we have and respect the countless hours of community input & planning that have gone into them while we update our current plan, especially as this approach can help create desperately needed new housing while improving our overall quality of life in more corners of our city and help us reach our carbon neutrality goals but shortening commutes & trips for many.

Regardless if I agree or disagree with anyone at City Council, I appreciate how you're gathering together, as you hold council and continue to serve the public. My best wishes and thanks to each and everyone of you (and to the City staff) at this challenging time.
