

NO TO LOCKWOOD 2!
 File No. SP20-010 & Z20-027

We, the residents of southeast Ann Arbor, object to the zoning change from R1C to a Planned Unit Development (PUD) to allow a for-profit entity, Lockwood Properties to build yet another senior citizen high-rise, where a neighborhood community center could be as stated in the city's Master Plan.

- This zoning change will also greatly reduce the taxes required by Lockwood Properties
- Lockwood Properties will NOT be required to build in accordance to the A2 Zero Carbon Neutrality Plan
- This "Lockwood 2" is a project that was rejected in a more affluent and less diverse community elsewhere in the city.
- The offer a few 'affordable' housing units is not sustainable nor 'affordable' as what is already exists by some of our Southeast Coalition partners (Forest Hills, University Townhouses, Arbor Oaks, etc.)
- This zoning change will:
 - Allow private residential space to be converted into commercial use contrary to the agreed upon Master Plan developed by City and community residents
 - Will **eliminate** the option of a non-profit communal space
 - Cause hardship to the current residents of Southeast Ann Arbor by
 - increasing traffic flow
 - sustain damage to the environment, thus exacerbating continuous flooding issues
 - drastically change the natural appeal of the neighborhood
 - continues the disregard for what the immediate wants
 - impacts a marginalized community without offering to it sustainable benefits
