McIntosh Poris Associates  
Laurie Hughet-Hiller

Dear Ms. Hughet-Hiller

At the request of Ann Arbor City Council, I have reviewed the request for load capacity regarding the Valhalla project. DTE currently has capacity on this circuit and will be able to serve this development. DTE does not have any concerns with this project as proposed regarding the development's electrical service.

Sincerely,

Anthony Ignasiak  
Supervisor - Engineering  
DTE

Anthony Ignasiak /s/
