**Resolution to Approve Third Amendment to State Street Lofts Development Agreement to Remove Parking Requirements and Terminate Parking Agreement**

This development was realized under the obligations of a Development Agreement which specified a minimum number of parking spaces to be provided. This minimum number of parking spaces was satisfied through an agreement with the City that obligated a specific number of parking spaces, through an arrangement that differs from the typical arrangement required by the City, via the Downtown Development Authority as operator.

This Third Amendment would eliminate any required parking component to this development. A separate agreement will terminate the corresponding parking agreement. This would enable both the owner and Downtown Development Authority to consider any future parking arrangements in the same manner prescribed system-wide, rather than previously specified/negotiated by Development Agreement.

Planning, Transportation, and the Downtown Development Authority staff have all reviewed this proposal and support the proposed amendment.
