Resolution to Approve 300 West Huron Hotel Site Plan and Development Agreement, 300 West Huron (CPC Recommendation: Approval - 8 Yeas and 0 Nays)

Approval of this resolution will allow for the construction of a new hotel and associated parking, site work and stormwater improvements.

Petition Summary:

- The petitioner is proposing to construct a 43,414-square foot, five-story 95 room hotel building with 4 parking spaces on-site and 7 spaces located just off-site including one space designated for a car-sharing service. The guest parking will be conducted using a valet service with parking provided in the Ann Ashley Public Parking Structure. A one-way driveway from North First leads to the small parking and service area, including solid waste/recycling storage, and exits to West Huron. An on-street drop-off lane will be provided, like the drop-off area provided at the hotel on Ashley, one block to the east.
- A development agreement has been prepared to address off-site improvements that are required to support the project including the on-street parking pull-off area and easement from the adjacent site.
- The Planning Commission raised concerns with the safety of vehicles exiting to Huron and the frequent pedestrian traffic on the Huron Sidewalk. The Planning Commission requested, and the petitioner agreed to keep the sidewalk along Huron open to the maximum extent possible through construction. There was also a request to provide feedback on the possibility of adding solar panels to the roof of the building. The petitioner indicated they would investigate this and provide feedback to the City Council.

The City Planning Commission, at its meeting of June 1<sup>st</sup>, 2021, recommended approval of this request.
