Resolution to Authorize the Purchase of Gasoline and Diesel Fuel for the City's Fleet for 5 years Beginning FY18

The Fleet and Facilities Unit annually purchases approximately 138,000 gallons of gasoline (including E-85) and 190,000 gallons of diesel fuel (including bio-diesel) for use in City vehicles and equipment. Fleet and Facilities staff have found that daily bidding by facsimile and delivery for the purchase of the fuels is the most advantageous and cost effective method of purchase. Fuel distributors receive a price for fuel from the producers every morning. That price is only in effect for that day. Bids for fuel purchases are sent to seven distributors in the morning for delivery in the afternoon. Using this "spot" bidding and ordering full tanker loads allows us to receive the lowest price. We have successfully used this method to purchase fuel approximately 30 years. Bids by email instead of facsimile may be considered in the future.

This resolution will authorize the purchase of fuel from any fuel distributor that complies with the requirements of the City's Non-discrimination Ordinance and is the lowest responsible bidder. We currently requests bids from the following list of fuel distributors:

- Atlas Oil Company, Detroit, MI
- Corrigan Oil Company, Brighton, MI
- Crystal Flash, Grand Rapids, MI
- Lenawee Fuels, Tecumseh, MI
- Petroleum Traders, Fort Wayne, IN
- Ports Petroleum, Wooster, OH
- RKA Petroleum, Romulus, MI

Additional distributors are added as we become aware of them.

Adequate funds for fuel purchases have been budgeted in the approved FY18 Fleet and Facilities Unit Operations and Maintenance budget. Fuel charges are passed through to the using service

units via the fleet rates.
