An Ordinance to Amend Sections 2:63 and 2:69 of Chapter 29 (Amend Water and Stormwater Rates) of Title II of the Code of the City of Ann Arbor

Your approval is requested to amend Sections 2:63 and 2:69 of Chapter 29 of Title II of the Code of the City of Ann Arbor to adjust water and stormwater rates for administrative errors and rounding adjustments.

The adjustment to the water rates merely corrects an Administrative typographical error and corrects the Residential 2 category for tier 3 (29-45 units) and tier four (over 45 units) to the appropriate rate of \$3.37, matching the tier 2 (8-28 units). The Residential 2 class represents customers that have two meters, one being for water only services. Irrigation usage is billed under the water only class; therefore, additional domestic usage is appropriately charged at the tier two rate.

The stormwater rate adjustments, modifies the rates for rounding purposes. In order for the customer bills in calculate correctly, the Representative Impervious Area must be carried out to five digits.

This ordinance is recommended to take effect ten (10) days after legal publication or on July 1, 2017, whichever is later.
