Resolution for the Designation of Street Administrator for Public Act 51 and to Authorize the Street Administrator to Sign Traffic Signal Control Costs Agreements and Municipal Trunk Line Maintenance Contracts with the Michigan Department of Transportation

The City of Ann Arbor has maintained MDOT’s trunk lines in the City limits through standard agreements between the City of Ann Arbor and the State of Michigan, including traffic signals, with standard cost sharing formulas in place for many years. City Council approved our current five-year contract on September 15, 2014. Under Public Act 51 and the Contract, the City must designate a Street Administrator, The Street Administrator is the single person designated to represent a community in transactions with the Michigan Department of Transportation.

We recommend that City Council appoint Nicholas S. Hutchinson, City Engineer, as the City’s Street Administrator and authorize him to enter into traffic signal costs agreements and Municipal Trunk Line maintenance Contracts with the Michigan Department of Transportation.
