Approval of the amended leases

The Commission is converting its public housing units to project-based vouchers under the Rental Assistance Demonstration (RAD) program. The units will be converted in phases, so there is a need to have two leases, one for public housing units and one for units that have converted to project-based vouchers. Once all of the units have converted to project-based vouchers, there will no longer be a need for a public housing lease.

The public housing lease has been reviewed and revised by the AAHC attorney, Jim Fink, to ensure compliance with state, federal and local laws. In addition, several addendums will be added to the lease related to non-smoking, satellite prohibition, VAWA, mold and mildew, bed bugs, asbestos containing materials and tenant charges for damages.

A second lease is needed to ensure that it conforms to the RAD program, the project-based voucher program as well as the Low Income Housing Tax Credit program, as a funding agency. Both the RAD program and the LIHTC program have separate tenancy addendums.

Prepared and Approved by Jennifer Hall, Executive Director
