Resolution to Approve the 121 Catherine Street Development Agreement (CPC Recommendation: Approval - 8 Yes, 0 No)

This resolution will approve a Development Agreement between the City of Ann Arbor and Ann Arbor Housing Development Corporation, the developer of a site planned project to construct a six-story residential building at the northwest corner of North Fourth Avenue and Catherine Street.

The 52,414-square foot building will contain 63 dwelling units on upper floors. The ground floor will have some retail space as well as support services for tenants. All apartments will be affordable to lower income households, managed and supported by Avalon Housing. The development also includes 18 public parking spaces with access from North Fourth Avenue and the rear alley. The 16,700-square foot site is in the D2 Downtown Interface zoning district and Kerrytown Character overlay district, and has Secondary frontage street type designation. The site plan utilized the affordable housing residential unit premium option per Section 5.18.6 and the affordable housing development exception to height limits per Section 5.18.4.

A Development Agreement requires approval by City Council. The Development Agreement specifies requirements associated with the approved 121 Catherine Street Site Plan, including granting an easement for pedestrian access across the private portions of the sidewalk along Catherine Street.
