Resolution to Approve a Construction Contract with Precision Concrete, Inc. (RFP 24-07) for the 2024 Sidewalk Repair Project (\$255,450.00)

Attached for your review and approval, please find a resolution to approve a construction contract between the City of Ann Arbor and Precision Concrete, Inc. (Precision) in the amount of \$255,450.00 for the 2024 Sidewalk Repair Project (RFP 24-07). This is one of three construction contracts for the Sidewalk Repair Program, one each for replacements, lifting, and trimming of sidewalk slabs.

The project consists of horizontally cutting existing concrete sidewalk slabs that have vertical displacements in approximately 20% of the City in 2024, as part of the 5-year cycle Sidewalk Repair Program to annually perform repair and maintenance of the City's sidewalk system. The attached maps depict the 2024 designated areas.

The 2024 Sidewalk Repair Project is created as a unit price contract with the understanding that the actual quantities will vary, based on assessment of the sidewalks in the spring. The construction is scheduled to begin in April 2024 and continue through November 2024. The 2024 contract is structured to allow for two additional one-year renewals, if agreeable to both parties. The Contractor is required to hold their bid prices for any subsequent contract renewals.

Engineering staff produced project specifications and contract documents and solicited construction proposals for the project through the City's Procurement Unit. On February 14, one bid was received and opened. The sole bidder was Precision Concrete, Inc. with a bid of \$255,450.00.

A selection committee comprised of Engineering staff reviewed the proposal and determined the proposal from Precision provided value based on the criteria in ORD-21-41 as follows:

- Qualifications, Experience, & Accountability (20%)
- Workplace Safety (20%)
- Workforce Development (20%)
- Social Equity & Sustainability (20%)
- Schedule of Pricing/Cost (20%)

After reviewing and scoring the proposal, staff recommends awarding the contract for this project to Precision. Precision has successfully completed the repair work in the City of Ann Arbor for the past several years and is able to meet the project requirements.

Precision has submitted all required Non-Discrimination, Prevailing Wage, Living Wage, and Conflict of Interest Disclosure forms and complies with the requirements of the City's Non-Discrimination, Prevailing Wage and Living Wage ordinances.

Budget/Fiscal Impact: Funding for the project comes primarily from the Street, Bridge, and Sidewalk Millage and is included in the approved capital budget. Some additional funding from various departmental budgets may also be utilized, depending on the locations at which the work is done.

Prepared by: Nicholas Hutchinson, P.E., City Engineer
