Resolution to Approve Application Fees for Pole Attachment Permits with DTE (\$41,250.00)  
Attached for your review and approval is a resolution to approve payment of one-time application fees to DTE for the DTE Pole Attachment Permits in order for the City to attach the new City fiber that will be part of the City's institutional network (A2 I-NET).

The City is in the process of designing a new Fiber Optics Network (FON) that was approved in Resolution 15-1485. As part of the design the DTE poles required to attach the fiber have been identified and Pole Attachment Permits need to be submitted to DTE for all poles. Each pole requires a \$55.00 one-time application fee. The total amount for the application fees is \$41,250.00. (750 poles @ \$55.00). Approval of a contingency of \$2,750.00 for up to 50 additional poles is also requested.

**Fiscal/Budget Impact:** This expenditure has been budgeted for the FY2017 Information Technology Services Fund budget under capital projects.

The City has prepared the permits for submittal and will be invoiced for the Application Fee after DTE receives the permits.
