Resolution to Approve a Grant Application to the USDA-NRCS Lake Erie Conservation RCPP for Purchase of a Conservation Easement on the St. John's Property

This resolution authorizes a grant application to the USDA Natural Resource Conservation Service (NRCS) through the Lake Erie Conservation Partnership Regional Conservation Partnership Program (RCPP) for the purchase of a conservation easement on the St. John's Evangelical Lutheran Church property located in Northfield Township.

Applications to the USDA-NRCS RCPP program are for funds up to 50% of the appraised fair market value of the conservation easement. This resolution also approves a preliminary agreement for purchase of the conservation easement on the property, which is required for the grant application. This preliminary agreement provides that the purchase is contingent on the following:

- A. Establishment of a fair market price for the conservation easement to be determined by an appraisal and approved by the City and the RCPP Program,
- B. Conveyance of good and marketable title of the conservation easement;
- C. Acceptable environmental site assessment of the property, and
- D. Acceptance of the conservation easement by Ann Arbor City Council and the RCPP Program.

An appraisal will be completed for each property and, if awarded grant funds, a complete budget along with a purchase agreement will be submitted to Council for approval.

Matching grant funds are through the USDA-NRCS's RCPP Program, awarded through the FY21 Lake Erie Conservation Partnership RCPP, which is led by the City of Ann Arbor. The City's share is from the Open Space and Parkland Preservation Millage proceeds.

A brief description of the St. John's Evangelical Lutheran Church Property for this grant application is

as follows:

The farm is approximately 75 acres and is located along E. Northfield Church Road in Northfield Township. The property is considered large enough to sustain agricultural production and is in a location that will encourage additional farmland and agricultural preservation activities. It is adjacent to an existing Greenbelt conservation easement. The property scored in the 55th percentile of all Greenbelt applications in the scoring system developed and approved by the Greenbelt Advisory Commission. The protection of this property is a priority for the Greenbelt Program due to the size and quality of the farmland, proximity to other protected properties, and possibility to leverage funds from federal sources. The property also meets the priorities for both the Greenbelt Program and RCPP Program.

The Greenbelt Advisory Commission recommended submission of the grant application for the Northfield Township property at its September 2, 2021 meeting.

Prepared by: Remy Long, Greenbelt Program Manager, The Conservation Fund
