Resolution to Approve Professional Services Agreement with Lazer Technologies, Inc. for Application Support Services (Not to Exceed \$75,000.00)

Attached for your review and approval is a resolution to approve a professional services agreement with Lazer Technologies, Inc. to provide application support services for the next six months. The agreement provides access to a qualified applications support specialist to provide support for applications serving Customer Service.

The staffing strategy employed by the City's Information Technology Service Unit is to occasionally augment staff with contracted services when the demand for IT services outstrips the supply of in-house resources. This is the situation the City Information Technology Service Unit currently faces.

Funding for the services is available in the FY 2012 Information Technology Budget.

Lazer Technologies, Inc. received Human Rights and Living Wage approval on June 1, 2011.
