Resolution to Award a 3-Year Contract for Water Main Line Stops and Insertable Valves to Watertap, Inc. ITB # 4588 (up to \$175,000.00/annually; \$525,000.00 for three years)
Attached for your approval is a resolution authorizing a 3-year contract with Watertap Inc., for up to \$175,000.00 annually for installation of water main line stops and insertable valves.

Each year Public Works encounters situations where sections of water mains must be isolated to replace valves, install fire hydrants or make emergency repairs. Installation of temporary line stops and valves enable this work to be performed with minimal interruption of water service.

ITB-4588 was advertised on the City’s Website and on the Michigan Inter-governmental Trade Network (MITN) website. Two bids were received and publicly opened on June 18, 2019. Watertap Inc. was the lowest responsible bidder for water main line stops and insertable valves.

Various sizes and quantities (estimated)	Watertap Inc.	Culy Contracting LLC
Water Main Line Stops	\$185,000.00	\$256,025.00
Insertable Valves	\$ 52,140.00	\$108,125.00

The contract dollar amount will cover the cost of the expected volume of work each year, based on Public Works staff’s past experience.

Budget Fiscal Impact: Funding is available in the approved FY20 Water System Operation and Maintenance Budget and will be available in subsequent budgets if approved by council.

Watertap, Inc. complies with the City’s Non-Discrimination and Living Wage Ordinances.

This agreement is from September 3, 2019 through September 3, 2022.
